Advanced Technology Group s.r.o. - ATG
Toužimská 771,
199 02 Praha-Letňany
CZECH REPUBLIC

V/C 901160

Attention: **Tomas Novotny**
Quality Manager
Vaclav Jandura
N.D.T. Level 3

Subjects: **N.D.T. Qualification Survey Results**

Dear Sirs,

On **July 2nd & 3rd, 2024**, a Non-Destructive Test Survey was conducted by **Dariusz Stepien** of P&WR's ESCO Group on behalf of P&WC NDT Core Group of your Fluorescent Penetrant Inspection procedures and personnel.

We are pleased to advise you that your facility was found acceptable to Pratt & Whitney Canada requirements. P&WC will now recognize **Advanced Technology Group s.r.o. - ATG s.r.o.** as an approved supplier to perform Fluorescent Penetrant inspection of parts to P&WC Method Requirement CFPM-1 and CFPM-4.

ATG s.r.o. has elected to utilize Supplier generated NDT procedures as listed below to satisfy applicable NDT Method/Qualification requirements which have been approved by P&WC's N.D.T. Technology Group.

<u>P&W Procedures</u>	<u>Supplier Equivalent Procedures</u>
NDTQ	ATG G10-21
FPM-M	WP IP-15-08-15

You are required to update your NDT System and revise your procedures as applicable whenever there is a revision noted in the P&WC Revision Status Index (RSI).

Non-Destructive Test Control at Source

A review was conducted of your Non-Destructive Test Control at Source (NDTCS) self-audit program requirements as defined in the P&WC Lab Manual Sections AC-40.

The review of your Non-Destructive Testing Control at Source (NDTCS) self-audit program as detailed in **ATG G15-11** showed full compliance to AC-40.

P&WC will now recognize **ATG s.r.o.** as a NDTCS approved supplier, and will be listed as NDTCS approved on the P&WC NDT Approved Suppliers list.

Level 3 Status

ATG's Vaclav Jandura is recognized as being the responsible Level 3 for **ATG s.r.o.** in Fluorescent Penetrant Inspection per the P&WC Qualification Requirement P&W-NDTQ.

A Level 3 certification remains active based on satisfactory results of P&WC audits/surveys and may be revoked whenever there is a valid reason to question the quality of the nondestructive test inspection, process controls, or if there is proof that the responsibilities of the Level 3 position are unfulfilled. Level 3 re-qualification is as per P&W-NDTQ latest issue.

Level 3 personnel certified to this specification must provide objective evidence of continued involvement in their respective NDT Method at intervals not to exceed five years. Validation shall be accomplished in accordance with NAS410/EN4179 or by successful completion of Nadcap and/or P&W audit. Documentation shall be submitted to the Certifying Agency and filed for future reference.

If the Level 3 position is vacated, **ATG s.r.o.** shall immediately notify P&WC's N.D.T. Technology Group and a qualified replacement must be certified within ninety (90) days of vacancy to maintain facility certification.

Please advise if any additional information is required.

Yours truly,

PRATT & WHITNEY CANADA CORP.,

Frederic Girard
